

Camelot wheel

Harmonic mixing chart for DJs and producers. Keys that sit next to each other blend cleanly.

Moves that work

- **Same code**
8A to 8A. The safest mix there is.
- **One step round**
8A to 7A or 9A. Smooth, keeps the mood.
- **Swap the letter**
8A to 8B. Same notes, minor to major.
- **Two steps up**
8A to 10A. An energy lift. Try it by ear.
- **Diagonal**
8A to 9B. A mood shift. Use with care.
